## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-22 are allowed.

The following is an Examiner's statement of reasons for allowance:

Claims 1-22 are considered allowable since when reading the claims in light of the specification, none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims including each of the slave devices further arranged to passively buffer PWM pulses received from the slave device immediately preceding it in the chain such that each device's PWM pulses are transmitted in one direction sequentially to the input of the master device via the intervening slave devices, such that, upon transmitting the EOT signal, the master device receives a continuous stream of PWM pulses followed by a single EOT signal as cited in claims 1, 15, and 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
